SUMMARY

My objective is to contribute to an organization's growth and goal attainment by leveraging my conceptual and analytical skills in challenging assignments. Through the effective application of these skills, I aspire to create a positive impact and contribute to the overall success of the organization.

PROJECTS

News App

- I developed a cutting-edge news application that provides a diverse range of news spanning multiple categories, encompassing sports, entertainment, science, and an array of other captivating subjects

Text Analyzer Tool

- I created a text analyzer application that adeptly counts word occurrences, smoothly switches between uppercase and lowercase formats, and smartly removes unnecessary spacing.

Food Website

- Designed an engaging and visually appealing food and restaurant website, leveraging cutting-edge technologies. This design prominently incorporates React.js to guarantee a smooth, responsive, and user-focused experience.

E-commerce Website

- Developed an e-commerce website using API and React.js, offering all users the ability to browse products, add items to their cart, and effortlessly log in using Google and Facebook authentication

EDUCATION

Bachelors of Computer Application

Maharshi Dayanand University
